

Empower easy, virtually anytime collaboration on any compatible device.

Solution brief

Employees can easily integrate audio, video and data-sharing through web conferencing in a cloud-based collaboration solution to help facilitate productivity.

The key to keeping mobile and remote employees productive is to give them the right collaboration tools combined with the best connectivity. A cloud-based audio, video and web-conferencing solution can help your workforce communicate at a moment's notice with teammates, partners and customers, while also helping you control costs.

Empower fast, easy, face-to-face communication.

BlueJeans by Verizon delivers face-to-face video communication for any organization that wants to bring people closer together. With BlueJeans, you get an easy-to-use audio, video and web-conferencing solution that helps people meet virtually anywhere, at any time, on the compatible device and supported browser of their choice.*

BlueJeans seamlessly integrates with many popular scheduling, messaging and productivity tools, and enables employees to:

- Simply schedule, join and host meetings in mere seconds, with a click of a button and without downloading software
- Communicate like they're in the same room with HD-quality video and crystal-clear audio
- Help improve meeting productivity through easy-to-use screen-share, whiteboard and chat features

With more employees using mobile devices for business communications and more work being conducted outside offices, collaborating via conferencing is becoming essential to operations.

* Supported browsers include Google Chrome®, Mozilla Firefox®, Opera® and Apple Safari®.

Make communication and collaboration effortless across your business.

BlueJeans sessions can be started with one touch from Apple® iOS and Mac®, Android® and Microsoft® Windows® devices. Whether they're in the office or on the go, employees can

quickly host or join meetings through an intuitive desktop or mobile app. Or they can use a supported browser without downloading any software or plug-in.

Key features and benefits

One-click scheduling: Click a button to add a video or audio call to any Google®, Microsoft Outlook®, Robin or FreeBusy® calendar invite without entering a PIN, conference ID or password.

Download-free meetings: Allow participants to join an audio, video or web conference via any supported browser. They don't have to download or install an app.

Meet on any device: Join or run meetings on your preferred compatible device from wherever you have a connection.

Crystal-clear, natural sound: Hear attendees clearly with Dolby Voice® placement audio, dynamic sound leveling and background noise cancellation.

Cloud recording and streaming: Record meetings and easily distribute recordings, including video, audio and shared content.

User-friendly integrations: Help improve workflow productivity by adding the solution to Workplace by Facebook®, Microsoft Skype® for Business, Slack®, Trello® and more.

HD video and content sharing: Easily and intuitively share video and content in near real time with coworkers in HD 1080p video quality.

Command Center: Analyze and manage in-meeting activity data. Provide IT staff and managers with the data they need to measure ROI, identify and solve problems, and make informed decisions.

Reduce travel expenses: Stay connected with your team and clients in a convenient, collaborative virtual workspace.

Smart Meetings: Capture the most important discussion points, assign action items and catch up quickly using time-saving highlight reels.

Choose the plan that works best for your business.

No two businesses are alike, which is why Verizon offers three plans for BlueJeans: Standard, Pro and Enterprise*. All packages come with month-to-month or annual pricing, and you don't need to migrate email, calendar or other apps to take advantage of the solution.

#1

Our network was ranked #1 nationwide by RootMetrics in overall network performance 13 times in a row.²

You deserve the best network.

By deploying BlueJeans on the Verizon network, you not only get the convenience of one bill and one point of contact, but also the benefit of combining a mobile workforce solution with our world-class network.

Available in 500+ markets and covering 98 percent of the U.S. population, our 4G LTE network, business wireless plans, mobile devices, accessories and technology solutions like BlueJeans Meetings work together to help people collaborate more effectively and boost productivity virtually wherever they work.

We offer BlueJeans Meetings as part of a comprehensive unified communications and collaboration (UC&C) portfolio. With the best network and flexible, easy-to-use conferencing from BlueJeans, it's easy to keep employees productive and connected, where work takes them.
