It’s time to modernize your infrastructure to support new ways of learning.

Take advantage of our special CPE offer.
One of the major learnings from the COVID-19 epidemic is that fast, flexible, reliable and secure networking and internet services are critical when it comes to supporting changing work environments. That’s why our special customer premises equipment (CPE) offer is designed to help your educational institution update your CPE and your remote learning and working capabilities.

As a partner, Verizon provides access to a robust portfolio of voice, data and video CPE, as well as professional services to assist in modernizing your network and applications.

Go with an industry leader.
As an experienced CPE provider and trusted educational partner, we can help you replace or refresh equipment that’s approaching end-of-life status, while ensuring that you have the right technologies to support nontraditional teaching and working environments.

We’ve been performing CPE site preparation, deployment and maintenance services for decades. Plus, with our comprehensive offerings, you can get everything you need without large upfront capital costs, including:

- The latest hardware, apps and networking technologies
- The right mix of hardware, software, labor, site services and managed services
- Ongoing CPE maintenance and upgrade plans
- A single, trusted vendor operating America’s most reliable network*

Upgrade your LAN and WAN to quickly adapt to new needs.
The latest CPE can help your educational institution become more agile, resilient and secure, while freeing up valuable IT resources. You’ll also be able to more easily adopt transformative technologies that enable distance learning, remote and mobile working, improved communication and collaboration, immersive learning experiences, and so much more.
