

Set up a communications hub in the field.

On-demand mobile network and cloud access helps keep your operations responsive and connected.

Keeping your operations running smoothly requires flexibility. Whether work is performed at a substation, water management facility, drilling pad or pipeline, Mobile Command Center (MCC) solutions from Verizon tech partner Connected Solutions Group (CSG) help your field crews work untethered at the edge of wireless networks. The ability to deploy these command centers enables crews to efficiently track assets, manage site logistics, and provide equipment maintenance.

Verizon has partnered with CSG to offer the Mobile Command Center 2.0, Mobile Command Center Mini and Mobile Command Center Mini Advanced. These portable deployables help deliver fast connectivity over the Verizon 4G LTE network, even in remote locations.

Portable, rugged and purpose built

The Mobile Command Center 2.0 delivers power, connectivity and VoIP phones. Its suite of modular components includes:

- Two detachable Yealink® handsets that work with Verizon One Talk
- An IP67-rated mobile case for weatherproof and drop-resistant durability
- Convenient wheel-behind case design and TSA-compliant size for easy delivery
- Durable, reinforced steel hinges that are built to serve in tough environments
- Appropriate router provided with MCC unit
- Standard 64,000-mAh battery
- External, weatherproof charging and data ports
- Interior LED lighting for nighttime visibility

Lightweight, reliable and compact

The Mobile Command Center Mini supports up to 10 users and is equipped with:

- An IP67-rated mobile case for weatherproof and drop-resistant durability
- An integrated router
- External, weatherproof charging and data ports
- A built-in high-gain antenna to help deliver higher speeds and wider coverage, minimizing the risk associated with delicate stick-and-paddle antennas
- Heavy-duty plastic internals to provide anti-shock protection to the router and battery
- A long lasting 11,000-mAh battery

Powerful and easily deployable

The Mobile Command Center Mini Advanced offers you the same features as the Mobile Command Center Mini but supports between 10 and 25 users.
