

Solutions brief

A better way to get the latest CPE technology

Customer Premises Equipment Monthly Recurring Plan

manage that equipment. With CPE MRP, you can efficiently connect locations and mobile workers around the world and help boost revenue with new services. It helps you deliver essential applications, and most importantly, grow and serve your customers.

CPE MRP leverages our capabilities as a global technology and managed services provider to give you:

- Advanced CPE for a flat monthly fee without large upfront capital expense (CAPEX)
- Expert CPE sourcing, configuration and installation¹ without upfront deployment expenses
- Proven, reliable and flexible Verizon CPE maintenance or warranties (vary by device)
- More time for your in-house IT personnel to focus on strategic activities
- New Verizon CPE when you need it

Delivering integrated global solutions

With our global IP network, we deliver comprehensive business solutions and improve the performance of applications around the world. With this reach and capability, we can provide you with a broad array of CPE to help streamline your business processes, improve productivity and increase agility.

It's hard to keep your technology up to date. And if you have aging customer premises equipment (CPE), it's hard to take full advantage of advances in communications technology and applications.

Unfortunately, updating and adding CPE can be expensive, with high upfront capital costs. Supporting and managing hardware and software can burden your IT team and increase operating expenses.

upfront costs. Because we operate around the globe, you can simplify how you source and deploy your CPE as you expand.

The value of our monthly recurring plan

You need your equipment to deliver critical communications between your employees and customers. But to improve your business results, you also need efficient, cost-effective ways to update and

You can procure, deploy, maintain and refresh your CPE technology for a flat monthly fee as a part of a solution tailored to meet your business goals.

Our CPE Monthly Recurring Plan (MRP) combines our expertise and resources to help you select, deploy, maintain and refresh the CPE you want for a flat monthly fee. With CPE MRP, you can reduce or eliminate

CPE technology refresh challenges	CPE purchase	CPE MRP
Upfront capital, deployment and maintenance expenses	Yes	Few or none
Additional in-house expertise required to source and implement CPE	Yes	No
Need to take title to the CPE and be responsible for logistics	Yes	No
Internal experts required to manage CPE maintenance	Yes	No

The consistent implementation and management that comes with our CPE MRP makes it easy for you to benefit from the rest of our global portfolio. We can plan, build, deploy and manage an integrated suite of solutions around the globe to help you accelerate your business. CPE MRP simplifies your role in technology implementation and management because you:

- Do not take title to the equipment at any time
- Do not have to deal with the logistics of getting CPE to required destinations
- Only have to deal with one point of contact: Verizon

Get powerful solutions from a global provider.
