

Boost worker productivity and maintain transparency.

Solution brief

Public sector employees can collaborate effectively in or out of the office with BlueJeans by Verizon.

The key to keeping mobile and remote employees productive is to give them the right collaboration tools combined with the best connectivity. A secure cloud-based audio, video and web conferencing solution can help your agency workforce communicate at a moment's notice with colleagues, partners and constituents, while also helping you control costs.

Empower fast, easy, face-to-face communication.

BlueJeans Meetings delivers face-to-face video communication for any agency that wants to help employees work more effectively. With BlueJeans Meetings, you get an easy-to-use audio, video and web conferencing solution that helps people meet virtually anywhere, at any time, on the compatible device and supported browser of their choice.¹

BlueJeans Meetings seamlessly integrates with many popular scheduling, messaging and productivity tools, and enables employees to:

- Simply schedule, join and host meetings in mere seconds, with a click of a button and without downloading software
- Communicate like they're in the same room with HD-quality video and crystal-clear audio
- Help improve meeting productivity through easy-to-use screen-share, whiteboard and chat features

And by running BlueJeans Meetings on the nation's most reliable network,² your audio, video and web communications work seamlessly and perform at the highest quality available. That's the Verizon advantage.

Make communication and collaboration effortless across your organization.

BlueJeans Meetings sessions can be started with one touch from Apple® iOS and Mac®, Android® and Microsoft® Windows® devices. Whether they're in the office or on the go, employees

can quickly host or join meetings through an intuitive desktop or mobile app. Or they can use a supported browser without downloading any software or plug-in.

Key features and benefits of BlueJeans Meetings

One-click scheduling: Click a button to add a video or audio call to any Google®, Microsoft Outlook®, Robin or FreeBusy® calendar invite without entering a PIN, conference ID or password.

Download-free meetings: Allow participants to join an audio, video or web conference via any supported browser. They don't have to download or install an app.

Meet on any device: Join or run meetings—from task-force committee meetings to public town halls—on your preferred compatible device from wherever you have a connection.

Crystal-clear, natural sound: Hear attendees clearly with Dolby Voice® placement audio, dynamic sound leveling and background noise cancellation.

Cloud recording and streaming: Record meetings, tag critical moments, assign actions, produce meeting-highlight reels and easily distribute recordings, including video, audio and shared content.

User-friendly integrations: Help improve workflow productivity by adding the solution to Workplace by Facebook®, Microsoft Skype® for Business, Slack®, Trello® and more.

HD video and content sharing: Easily and intuitively share video and content in near real time with coworkers in HD 1080p video quality.

Command Center: Analyze and manage in-meeting activity data. Provide IT staff and managers with the data they need to measure ROI, identify and solve problems, and make informed decisions.

Reduce travel expenses: Stay connected with your team and constituents in a convenient, collaborative virtual workspace.

Choose the plan that works best for your organization.

No two agencies are alike, which is why Verizon offers three BlueJeans Meetings plans: Standard, Pro and Enterprise. Choose from a one-time, annual payment or an annual subscription with monthly payments for any of the three plans.

BlueJeans Meetings: Standard

Ideal for individuals and small organizations

- Up to 50 participants per conference
- Desktop, iOS, Android apps and native browser access
- Audio dial-in and web access
- Unlimited meeting duration
- Dolby Voice wideband audio
- Schedule meetings from Microsoft Outlook, Office 365® or Google Calendar™
- Desktop and application sharing
- Remote control keyboard and mouse
- The ability to play video files during meetings
- In-meeting chat
- Streaming to Facebook Live or Workplace by Facebook
- Enterprise-grade Advanced Encryption Standard (AES)
- Single sign-on (SSO) with Security Assertion Markup Language (SAML)
- Smart Meetings

BlueJeans Meetings: Pro

Ideal for mid-sized organizations and teams

All of the Standard plan features plus:

- 25 additional participants allowed per conference (75 total)
- Cloud meeting recording (25 hours/host)
- Dynamic Command Center dashboard to measure meeting ROI and analyze data
- Historical meeting analytics
- Integration with Slack and Skype for Business

#1
