

# Cisco Jabber

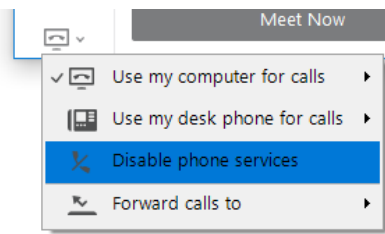

## How Do I Disable Phone Services in Jabber?

You can disable soft phone services in Jabber by following these simple steps.

- By disabling the voice services:
  - All incoming calls will not ring on Jabber
  - You will not be able to call anyone using Jabber
- 1. In the Jabber bottom left corner window, look for this icon below (Highlighted red box). The icon in the bottom left corner of the main Jabber window identifies the current mode the Jabber client is in. This mode enables Jabber to receive phone calls on **computer and desk phone**.

- 2. To disable phone services on the computer, Click on the drop down arrow and change the option to Disable phone services

3. If you want to enable phone services to your desk phone, just select **Use my desk phone for calls**.
