

Cisco Jabber

How to Remove Contacts and Groups in Jabber?

You can remove a contact or group in Jabber in one simple step:

1. From the Jabber Window, highlight the contact you want to remove. Right click on the **contact** and select **Remove**.

2. To remove a group list from your contact list, highlight the **group** that you would like to remove. Right mouse click and select **Remove**.
Caution: When you remove a group list it will remove ALL contacts under that group.
