

Cisco Jabber

How to Start a Group Chat in Jabber Mobile for Apple iOS

Here is how you can start a group chat in Jabber Mobile for Apple iOS.

1. In your Jabber window, Click on **Chats**.
2. Click on **Chat icon**.

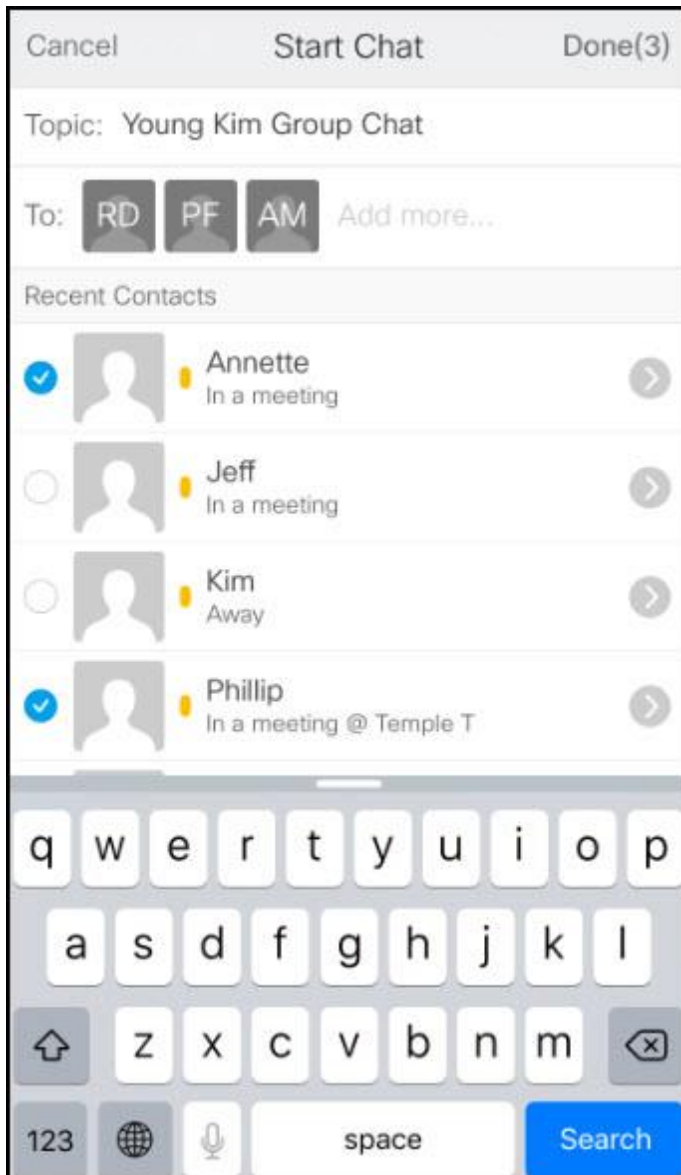

No Ongoing Chats

When you start or join a chat, the messages appear here.

3. In the **To** field, enter and add the appropriate people you would like to start a group chat with. Click **Done**.
Note: You can also change the **Topic** name of the group chat.

- Once the selected contacts join, you will be able to start a group discussion.
