

Cisco Jabber

How Do I Use Jabber Softphone on My Computer?

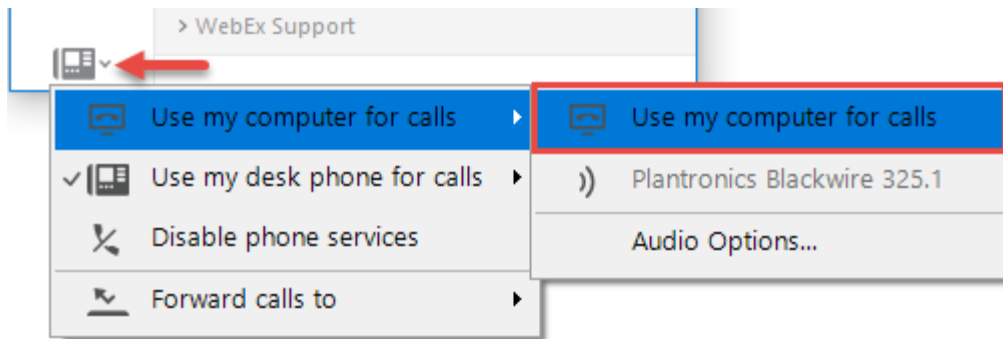

Please follow these simple steps on enabling Jabber to receive inbound and make outbound phone calls.

Note: You will also need to follow these steps to enable Jabber video for Telepresence Video Meetings.

1. In the Jabber bottom left corner window, look for a desk phone icon below (Highlighted red box).

-
2. Click on the **drop down arrow** next to the phone and change the option to **Use my computer for calls**

If you find that your Jabber phone number is not the same as your desk phone, refer to the article [Why is My Jabber Phone Number Different Than My Desk phone?](#)
